ST. MICHAEL'S COLLEGE
ARCHIVES

Principal's Message

St. Michael's College School is on the verge of becoming a fully independent school. In September 1988 - our school will again be launching out on its own, so to speak, without the good graces of the separate school board. What does that mean for this College School Community?

To answer the question one has only to look back at the history of the college. For 135 years this school has grown from the days of being a minor seminary to a high school which today offers a programme of studies which prepares young men for University but more importantly for service to their community, to their country and to their God.

The rich tradition that has come from being one of the pioneers of catholic independent schools in Ontario should not be lost because we realize what an effective instrument this tradition is for achieving the goals of Catholic education. The return to independence then means that if the time-proven tradition is to be preserved, all concerned - staff, students, parents and alumni - will have to rise to the occasion. This being the case, it will continue to flourish and be a powerful force in the lives of our young people who will go forth to bring the good news of Jesus Christ to the world, so much in need of his message of good will to all.

So I appeal especially to you the students of St. Michael's to take up the challenge. Carry on the tradition which has been preserved and handed on from your forefathers. It will be by your lives of witnessing to the gospel message that you will meet the challenge. I know you can do it.

Fr. P.F. McCabe, C.S.B.

"I am the vine and you are the branches."

This famous line from scripture is the theme of this year's yearbook. The idea behind this theme is that God is the base or central meaning in our lives and that by following his words and actions through our everyday activities, we become like the branches, supported and nurtured by God. When trying to come up with an idea for this dedication, we had thought of writing about a teacher in this school. After all, the teachers are an instrumental part to our school life. We then realized, however, that there is something even more instrumental in our school life, and that is, our involvement in it. This thought first became clear to us one fall afternoon after a devastating loss to Senator Pocock. We remember being there along with many others cheering on our team, never once betraying our dream. Even when the clock ran out, we were still proud of our team. They had worked hard to get where they were. They had sacrificed many hours practising in order to represent their school. This is what St. Mike's is all about. It is the commitment by the students in their particular endeavours, whether athletic or academic in nature. By no means do we mean to centre on the football team. This also includes students involved in everything from volleyball to golf to debating and public speaking. This list also includes those who represent St. Mike's publicly, whether helping at the Good Shepherd's Refuge or attending peace and Pro-Life rallies. There are indeed many more endeavours that St. Michael's students have involved themselves in, which we cannot bring to list. It suffices to say that St. Michael's College School was built on the sweat and hard work of these people and not merely those yellow bricks. Just as God is the vine, so is St. Michael's and we are the branches that support its great length.

No one can deny the work of the coaches and the administration, but it is the overall effort by the students during their five short years here that builds the reputation of this school to such a degree that it is easy to say that St. Mike's is the most well known high school in Toronto. It is for this reason that we dedicate this year's TOWER to you, the students, for no one deserves it more. We would also like to encourage all students who are not involved in the extra-curricular activities at St. Mike's, to involve themselves and make their time at St. Mike's more fulfilling.

We would also like to extend a special congratulations to this year's graduates for making the last five years memorable ones, both inside and outside the classroom. May the memories of St. Michael's bring you all happiness for many years to come.

Art & Poetry

These blackest walls surround me
And I've nowhere to go.
To me, the sun is blacker than coal
And nothing ever grows.
I live life in the shadow of life,
A victim of crooked fate;
Scorned by misconception,
A victim of worldly hate.
The joke of a God who found purpose
In a jeer at my crooked ways.
The difference, in my own experience
Is nothing, twixt night and day;
But, that the day brings pain to me
And nights are quiet and still;
Sunrise comes with a gentle song
And dusk moves in for the kill.
At night I am your equal,
A blackout, society frets . . .
But this, to me, is life itself
And one so soon forgets
That life is more than one sees;
Infact, it is wealth not to see.
What would we have to jeer at?
What conflicts would there be?
All would be one, again
As how once, it was planned . . .
Rather than watching the world pass by
We could listen for birds to land.
Man would be wiser
If only he weren't so resigned
With the world at his fingers.
Oh, that all men could be blind.

Neil McGivney

The Deepest Corners Of My Mind

Turned away into the darkness
Swept into life's utmost desire;
Taken from upon the earth's surface
Left to those who slander and conspire.

Abandoned by a diabolical adversary
Accepted by a much needed confidant;
Lured into a friendship of promise
Existing in a life without want.

Created in a world of compassion
Kept until no more was required;
Used as an object of meagre worth
Eliminated upon being acquired.

Alliances lacking sincerity
Selfishness plaguing their souls;
Sympathy inhibiting deepest of thoughts
Destiny finally taking control.

Senior Football

With an 8 win, 1 loss record, the Senior Kerry Blues finished 1st in the T.D.C.A.A. Eastern Division. Unfortunately, they lost by 1 point to a stubborn Philip Pocock in the championship game. The team consisted of many fine athletes who worked hard all year long. Special consideration must be given to the following team members who were selected to the T.D.C.A.A. All Star Team - Paul McNulty, Vic Criscuolo, Pat Doran, Dan Del Fatti, Carmine Perrelli, Nick Migliore, Rob Lepone and Mike Kolakovic.

The 1986-87 school year has been a most successful one for St. Michael's in terms of capturing T.D.C.A.A. team titles. This year's track team was the strongest in St. Michael's history adding four more titles to that list of championships.

The Midget Team won its division, scoring 156 points - 87 more than its nearest rival Neil McNeil. Individual goal medals were won by Roger Thurton in the hurdles and the triple jump, Michael John-Baptiste in the 800 metres, Peter McConnon in the 3000 metres and Jacob Rogalski in the javelin. Angelo D'Amico won one silver and two bronze medals in the distance events and Ray Babao had the same in sprints.

The Juniors from St. Michael's dominated the track events. Gabby Yearwood and David Hislop finished first and second in the hurdles. Gabby and Ivan Boddy finished first and second in virtually the same times in both the 100 and 200 metre finals. In the 800 metre, Adrian Armanini and Frank Wolf finished first and second. In the 1500 metre event Wolf was first, Danny Grossi second and Armanini third. In the 3000 metres, Grossi won the gold, Wolf the silver and Armanini the bronze. Ivan Boddy won the long jump and Kwabena Opuni was second in the javelin as was Frank Ientile in the pole vault. The Juniors accumulated 174 points. Second place Neil McNeil had 49.

The Seniors were led by grade 13 student Pat Doran who won two silvers and a bronze in the individual sprints and two gold medals in the relay events. Matt DeChellis had an individual gold and bronze and two relay golds. Steve Tannis and Enzo Sallese each had second and third place finishes as well as running on two winning relay teams. Francis Greco won the javelin and Carmine Perelli was second in the shotput and discus. Roland Semprie won the senior triple jump. Jim Rega and Scott Lewis finished first and third in the steeplechase.

Two other seniors had excellent performances despite serious injuries. A stress fracture of the foot did not stop Bruce Keith from winning a silver medal in the 800 metres. In spite of an ankle injury that made it difficult to walk, Emile John managed to finish second in the hurdles, third in the triple jump and first in the long jump. His performance in the long jump broke a school record that had stood since 1953. The Seniors won their division 67 points ahead of Neil McNeil.

In the overall standings Michael Power finished third among 30 schools with 128 points. Neil McNeil was second with 200 and for the fifth straight year St. Michael's finished on top - this year with the highest point total of any team in the 26 year history of the league - 537 points. St. Michael's score was equal to the combined score of Neil, Power, Henry Carr and Upper Canada.

The team was also undefeated in full competition meets this year. Congratulations to such a fine team.

VALEDICTORY ADDRESS

The date was September 7th. The year was 1982.

In that year St. Michael's College School celebrated its 130th year. In that same year those ever so famous yellow bricks beckoned "WELCOME" to approximately 200 bright, energetic, very intimidated and awfully petrified young men. Passing through the archway, into the halls and into the gymnasium on that memorable September afternoon, those youngsters soon became accustomed to a new designation for their aimless state of being - that of "NINER". The funny thing about that situation was that we, the members of the graduating class, were those starry-eyed little innocents. But that day was paramount to our development as men and as Christians because it marked a new beginning. A beginning which will be cherished for years to come.

Remember how as niners sitting in the gym we were told that success directly depended upon the individual. We were told that in order to be a success at St. Mike's we had to immerse ourselves in what St. Mike's had to offer - be it academic, athletic, spiritual, cultural or social. We were also told of a time-honoured legacy and a cultivated tradition of excellence which has existed since 1852. But finally and most importantly, we were told that if we were successful, we would one day be known as the GRADUATING CLASS OF 1987 OF ST. MICHAEL'S COLLEGE SCHOOL.

It has been five years since that memorable September day. Years in which we have toiled incessantly. Years in which we have suffered and years in which we have reaped much enjoyment. Since that first day in Grade Nine, our energies and aspirations have been directed to this one day entitled GRADUATION.

Today, I think I can best sum up the sentiments of the graduating class as those of relief and of sadness. Diplomas in hand, now is the time to reflect upon and enjoy the fruits of our labour. We can look at our accomplishments and stand proud. It has taken us five years to reach this moment and undeniably, when we leave St. Michael's, we shall miss it immensely. Yet, we can rest assured that we have left our indelible imprint in the history book of this fine institution. It is because of our diverse talents ranging from the Arts to Academics to Athletics that we have enabled St. Michael's to grow and develop along with ourselves.

In searching for a theme for this graduation reflection, I had discovered that the most formidable of all themes could be found in what we have been taught. While studying for my English exam I came across T.S. Eliot's *The Four Quartets*. The first few lines of "Burnt Norton" and "East Coker" struck me as the most pertinent. They read:

Time present and time past
Are perhaps present in time future.
And time future contained in time past.

Eliot went on to write "In my beginning is my end" and "In my end is my beginning". In reviewing these lines over again I had found my theme. Graduation is an event which forces us to examine the past, present and future. It is a reconciliation of our past achievements, our present status and our future endeavors.

I would like to take this opportunity to reflect upon graduation as an event which contains within its dimensions a glimmer of the past, present and future. Firstly, I would like to begin by examining the past. As a graduating class, we've had to live with one another for five years. Let us ponder some of the events which have led us to this juncture in time and have enabled us to grow in communion with mind, body and spirit and naturally with one another. Do you remember our very first "pep" rally? It was niner day at St. Mike's and one of us was to be chosen to recite the hoickety choik in front of the entire school population. Do you remember advancing from class to class trying to memorize the words to the hoickety choik? Remember your amazement when you entered the gym and saw balloons, streamers, videos, cars and massive football players parade before your eyes! Remember the feeling of terror when the spot light passed over you and the sense of relief when you found out it was Carlo who was chosen and not you! Do you remember our very first football game, our very first T.D.C.A.A. and METRO championships? There are memories of great hockey games which were dominated by Chris DePiero, Chris Loftus and Jamie Baker and of great basketball teams under the tutelage of Mr. Prendergast and led by stars like Eugene Babilio and Bernard Jackson. There are memories of track and field and one of Ontario's best track stars - Emile John. There are memories of great drama productions. Who can forget Chris DeBono's performance in *South Pacific* or William Tinmouth in *The Lark* or Nick Fava's role in *Quel Bandito Sono Io*. There are memories of the Tower with its editor Tony Zafran. Who can forget the

efforts of Celio Jordao, John Tinmouth and Dan Tourangeau as they realized the dream of the *Blue Herald*. There are memories of a great student government led by Bruce Keith and Finley Mullally. Finally, there are memories of yellow bricks, Shrove Tuesday retreats, "Michael Prince of All the Angels", blue slips, yellow slips and detention hall with Fr. Enright. These are some of the memories that will make us laugh, chuckle and even cry. These memories will be cherished for years to come. Graduation commemorates those past achievements of our high school career.

Secondly, graduation is also a present point in time. This present moment is significant because it marks the end of an era and a new beginning.

This brings me to my final point - that of graduation and its inter-relationship with the future. Our diplomas will enable us to continue our journey in life. A journey of searching for the answers to the fundamental questions of essence and purpose. St. Mike's has given us the foundation upon which we will have to build. A foundation consecrated and enshrined in the words of our crest: Bonitatem et Disciplinam et Scientiam, Doce Me. As we go into the world - into the courtrooms, classrooms, boardrooms, hospitals and stadia, we will always take with us what we have been taught. It is because of our friends, parents and teachers that our perspectives and minds have been broadened and our spirits have been touched. Through five years of mental exercise we have become sharp, but most importantly, St. Michael's has enabled us to become bearers of the word of the Good Shepherd Himself.

Each of us has special qualities. Each of us is unique. Yet the one bond which links us together is the bond of humanity. A humanity which obtains its dignity and sanctity from the Divine Touch. This humanity has been pruned and cultivated by our friends, parents and teachers. We have grown up to be GOOD CHRISTIAN PEOPLE. As we leave this sanctuary, we must realize we are facing a cruel, dismal and often times insane world. The youth of today will have to transform the world of tomorrow. We have the responsibility to touch the heart of stone, correct injustice and cure plagues of despair. We can overcome these because we have been bathed in the spirit of St. Michael's - a spirit of maturity, dedication, truth and love based on a foundation of goodness, discipline and knowledge. St. Mike's is a profound school which has enabled us to confirm our Catholicity and our Christianity. With this spirit we might be able to bring about a metamorphosis of this world. Always let the flame of the spirit of St. Michael's burn within you.

I can think of no better way to end this graduation reflection than by thanking all of the individuals who have enabled the spirit of Christ and the spirit of St. Michael's to flower and bloom within us. To our teachers, we thank you for your patience, understanding and commitment. To our Basilian friends, we say thank you for your support, spiritual guidance and understanding. To you the members of the graduating class, I say thank you. It is because of your reliability, warmth and caring that I can say that I've experienced a great sense of love. Finally, to our parents and families, we say thank you. It is because of your love, understanding and sacrifice that we can say that we've grown. To all of these individuals - parents, teachers, Basilian Fathers and to you the members of the graduating class, I dedicate the words of a school girl to her teacher:

The time has come for closing books
And long last looks must end.
And as I leave, I know that I'm leaving my best friend.
A friend who has taught me right from wrong
And weak from strong.
That's a lot to learn.
What can I possibly give you in return?
If you wanted the moon
I would try to jump the stars.
But I'd rather you let me give my heart
TO SIR, WITH LOVE.

REMEMBER.....the
Senior 'Gillie' Gilligan is a very peaceful man who like
hockey violence and naturally cruise missiles.
he also takes a stand against discos and to
much mousse. Although Tim would like
to be a criminal lawyer, he sees
himself as an inmate in the
Kingston Penitentiary ten
years down the road.
